PROFESSIONAL SUMMARY

UI/UX Designer with 2 years of experience designing modern, user-centric web and mobile applications for POS systems, online ordering platforms, CRM modules, and cloud-based products. Skilled in creating clean, intuitive, and scalable interfaces with a strong focus on usability, visual hierarchy, and seamless user experiences. Experienced in end-to-end product design, wireframing, prototyping, responsive layouts, and collaborating closely with developers for accurate implementation.

CORE SKILLS

UX Design: User Research, Wireframing, User Flows, Information Architecture, Responsive Design, User-Centered Design

UI Design: Design Systems, Component Libraries, Typography, Color Theory, Interaction Design, Mobile & Web UI

Frontend Basics: HTML, CSS, Responsive Layouts

Tools

Figma • Adobe XD • Photoshop • Illustrator • Canva • Framer

PROFESSIONAL EXPERIENCE

UI/UX Designer | Lucid IT Solutions Pvt Ltd

2024-Present

- Designed end-to-end UI screens for POS systems, online ordering platforms, CRM modules, and cloud-based applications.
- Created user-friendly interfaces for billing, payment settlement, discounts, offers, and order management workflows.
- Improved usability, navigation clarity, and operational efficiency through targeted redesign of existing systems.
- Partnered with developers to ensure pixel-accurate implementation of UI designs and responsive behavior.
- Built reusable UI components and maintained design consistency using established design system principles.
- Leveraged AI-assisted workflows for faster ideation, layout exploration, and UI enhancement.

KEY PROJECTS

Point of Sale (POS) System

Designed modern billing, payment, discount, and order management interfaces focused on speed, clarity, and staff-friendly usability with minimal clicks.

Online Ordering System

Created category-based menu layouts and ordering flows to improve product discoverability, readability, and a smoother customer ordering experience.

CRM & Feedback Module

Designed forms, listings, dashboard views, and feedback management screens with simplified workflows tailored for non-technical users.

Valet Parking System (Redesign)

Redesigned vehicle check-in/check-out workflows with improved visual hierarchy, status indicators, and operational tracking experience.

PORTFOLIO PROJECTS

DocValet – Document Management & Cloud Storage App

Designed a modern document management and cloud storage application focused on secure file storage, organization, accessibility, and seamless document handling through a clean, minimal interface.

Fashion E-Commerce Mobile App

Designed a modern fashion shopping mobile application with intuitive product discovery, promotional sections, responsive layouts, and a smooth checkout experience centered on user interactions.

Gaming Tournament Website

Created an immersive gaming tournament website with a dark neon-themed UI, interactive gaming sections, tournament flows, character showcases, and community-focused navigation.
